### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moses (US5237582) in view of Lupo et al. (EP0676461A2).

With respect to claims 21-32, Moses shows in Fig. 4 and 6 a substrate 12, a bottom electrode 50, a laser dye 42, and a top electrode 48. Moses lacks the laser dye comprising a spiro compound of formula (I). Lupo teach a spiro compound of formula (I) (page 1). For the benefit of providing a stable emission over time, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide Moses a spiro compound of formula (I) as taught by Lupo.

***Response to Arguments***

Applicant's arguments filed on 06/01/04 have been fully considered but they are not persuasive.

Applicant argues that the combination of Moses and Lupo references is not proper. The examiner does not concur with the argument because Applicant simply claims a substrate and a layer of a spiro compound of formula (I) (page 1) to come up to a laser as claimed. As for the references, Moses clearly shows in Fig.4 a substrate 12 and Lupo teach the use of spiro compound of formula (I) in electroluminescent devices (light emitting devices). Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to combine Moses and Lupo to come up to a laser as recited in the claims.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the

advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
